Deputy Director Pinkos Speaks at Two In-house Events -

(Feb. 6, 2006)

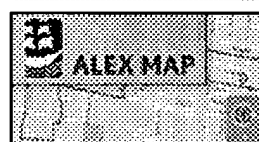

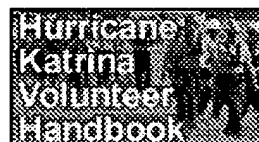

Deputy Director Steve Pinkos spoke at two all-hands meetings this past week. He spoke to employees of Technology Center 2600, and those attending the Trademark All Managers Meeting.

Deputy Director Steve Pinkos speaks to employees of Technology Center 2600.

Mr. Pinkos thanked TC 2600 employees for improving their quality and pendency last year and congratulated them on achieving an error rate below their goal. He also told attendees that 250 patent examiners would be hired in TC 2600 in 2006. The technology center had 21 percent growth in patent filings last year. Mr. Pinkos mentioned that the Electronic Filing System-Web would be available to the public in March and encouraged employees to check out the Patents Hoteling Program (PHP).

At the Trademark All Managers Meeting, Mr. Pinkos talked about the goals of the trademark organization to expand its telework program, establish two new law offices, and hire 80 trademark examining attorneys this fiscal year. He commended the trademark organization for meeting its first quarter production and quality goals. Mr. Pinkos said he was enthusiastic about the trademark organization's plan to develop a "process map" for workflow of the entire trademark operation. Other speakers at the trademark managers meeting included David Freeland, the Chief Information Officer, who updated trademark managers on his plans for the organization; Vickers Meadows, the Chief Administrative Officer, who described initiatives in her shop, such as the Human Capital Council; and Barry Hudson, the Deputy Chief Financial Officer, who described his vision for the new strategic planning process. All of the speakers answered numerous questions.
